5. SET UP GUIDE.

5. Because the bottle is square, it may contact an "A" support clip (black) in the next right column. If the Volvic product hangs there, the clip should be removed.
6. Because of the Load Rack Bracket, the left hand spacer can't be installed in column # 6. Therefore, this product can't be vended in that column.
7. The Sold-out Lever is to be the short style with the long front spacer. The Spring is to be located on the right side (low pressure setting).
